Remote Valve Actuators

MIDLAND Remote Valve Actuators (RVA) are designed to provide fast automated emergency shut-off of your tank car and tank truck angle valves.

Now, **MIDLAND's** NEW actuator does it all...

- Provides emergency shut-off of chlorine at the source
- Operates **MIDLAND** and ACF angle valves
- Complies with Chlorine Institute Pamphlet 57

**Universal actuator
(Model B-3715)**

**operates
MIDLAND
and
ACF
angle valves**

FEATURES:

Air actuated motors

Stainless steel and Monel components

Lightweight for ease of use and safety of plant personnel

Rugged and durable for longevity of use

Immediate availability from **MIDLAND**

Remote Valve Actuator Systems

MIDLAND Remote Valve Actuator (RVA) systems are designed specifically to meet your plant's operational needs when it comes to loading/unloading your chlorine tank cars and tank trucks.

- Pneumatic operation
- Choice of **MIDLAND** Remote Valve Actuator functions:
 - * OPEN & CLOSE
 - or
 - * CLOSE only
- Provides fast automated emergency shut-off of your angle valves
- Universal actuator operates **MIDLAND** and **ACF** angle valves
- Unique pressure — flow intelligence verifies valve position
- Provisions for emergency shutdown of remote facility pumps
- Interfaces with external sensors:
 - * Chlorine Sniffers and Leak Detectors
 - * Emergency Stop Switches
 - * Vibration Sensors
- Easy Operation
Low Maintenance
- Meets requirements of Chlorine Institute Pamphlet 57

B-3715 actuator on MIDLAND angle valve

B-3713 actuator

B-3715 actuator on ACF angle valve

Now you can choose a **MIDLAND** actuator for the specific type of angle valve on your chlorine tank cars and trucks!
